| | |
|---|---|
| **Ca-PRI 2023 Programme** | |
| **Day Zero Wednesday 22nd March** | |
| 17:00 | Uncomfortable Oxford History of Medicine Walking Tour (Meet Bridge of Sighs) |
| 18.30 | Drinks Reception (Nuffield Department of Primary Care Sciences, Radcliffe Observatory Quarter – Walking Tour Endpoint) |
| 19:30 | Early Career Researchers Networking Dinner (All Bar One, High Street) |
| **Day One Thursday 23rd March** | |
| 08:30 | Coffee and Registration |
| SNSC Auditorium<br><br>Chair: Brian Nicholson | |
| 09.30 | Welcome from Brian Nicholson and David Weller |
| 09.35 | **Peter Johnson – The role of primary care in the NHS cancer strategy** |
| 10.00 | **Anne Mackie - Are there challenges ahead for personalised cancer screening** |
| 10.25 | **Ruth Etzioni - Informing the primary care conversation about multi-cancer early detection testing** |
| 10.50 | **Oxford Cancer Patient and Public Involvement & Engagement Group** |
| 11.05 | Q&A with Thursday Morning Keynote Speakers |
| 11.30 | Coffee |
| | *Please note you can find the abstract for each presentation in the brochure under the abstract number listed as AXXX.* |

| | SNSC Auditorium | SNSC Seminar Room 1 | Nash Suite Room 1 | Nash Suite Room 2 | SNSC Seminar Room 2 |
|---|---|---|---|---|---|
| **11:50** | **Chair: Anna Dowrik** | **Chair: Larissa Nekhlyudov** | Workshop (Early Diagnosis) - | **Chair: Li Li** | **Chair: Christina Damhus** |
| | **Screening and Prevention 1** | **Survivorship 1** | **Multi-cancer early detection (MCED) blood tests for symptomatic patients in primary care** - Sara Hiom (A310) | **Context and Communication** | **Early Diagnosis - Awareness** |
| | SMARTscreen to SMARTERscreen: using a novel SMS with narrative communication to increase uptake of the National Bowel Cancer Screening Program in Australia, learning from a pilot study **Jennifer McIntosh (A196)** | Psychosocial interventions that facilitate adult cancer survivors' reintegration into daily life after active cancer treatment: a scoping review **Sarah Murnaghan (A199)** | | Improving communication from secondary to primary care about treatment decisions for patients with cancer: development and pilot testing of a new format for written communication **Vera Hanewinkel (A213)** | Feasibility of a Targeted Intensive Community-based campaign To Optimise vague Cancer (TICTOC) symptom awareness and help-seeking in an area of high socioeconomic deprivation **Pamela Smith (A174)** |
| | Acceptability of risk-stratified bowel cancer screening: findings from 'At Risk', a qualitative study **Hannah Miles (A203)** | Fear of cancer recurrence at 2.5 years after a cancer diagnosis. Needs for care and contacts to general practice. **Linda Rasmussen (A200)** | | Which patient-related context information, available in primary care, should be taken into account during the treatment decision making process for older patients with cancer? **Mariken E Stegmann (A215)** | Symptom appraisal and help-seeking in men with symptoms of possible prostate cancer: a qualitative study with an ethnically diverse sample in London **Ben Shaw (A182)** |
| | Formulation of a clinical practice guideline on cancer screening for primary care **Martin Wong (A250)** | Experiences of Cancer Survivors with Lifestyle Care in General Practice: a Qualitative Study **Famke Huizinga (A277)** | | Involving context information from the general practitioner in multidisciplinary meetings about older patients with cancer **Mathilde Tjepkema (A271)** | Assessing awareness of blood cancer symptoms and barriers to symptomatic presentation: Measure development and results from a population survey in the UK **Laura Boswell (A216)** |
| | GPs' use of symptomatic FIT and public barriers and enablers to completion. **Lindsay MacDonald (A278)** | Impact of the COVID-19 Pandemic on the Quality of Breast Cancer Survivorship Care in the United States (US) **Lauren Wallner (A251)** | | Overview of primary care focused cancer research on the island of Ireland – a bibliometric analysis and two-country comparison **Benjamin Jacob (A297)** | Assessing the narratives on lung health using focus group discussions pre- and during-the PEOPLE-Hull lung health public media campaign **Julie Walabyeki (A299)** |
| | A screening ratio for the performance of GP participation in a national bowel cancer screening programme accounting for sociodemographic differences **Martina Slapkova (A295)** | Development of the HT&Me intervention to support women with breast cancer to adhere to adjuvant endocrine therapy and improve quality of life **Lucy McGeagh (A307)** | | Evidence for access: systematic scoping review of access systems in general practice **Abi Eccles (A309)** | Lung cancer awareness in Hull pre-, during- and post-lung health public media |
| | Significant predictive contribution of genetic propensity in integrated dynamic early detection models for colorectal cancer, encompassing core demographics, genetics, symptoms, biomarkers, medical history, and lifestyle: A UK Biobank | | | 'Picking up the pieces': primary care practitioners' experiences of | |

| | | | | | |
|---|---|---|---|---|---|
| | prospective cohort study **Samantha Ip (A303)** | | | cancer care reviews: A qualitative study **Dipesh Gopal (A190)** | campaign: The PEOPLE-Hull Study **Julie Walabyeki (A300)**<br><br>Every Breast Counts: Supporting Black Women Along the Breast Cancer Journey **Elaine Goulbourne (A280)** |
| 13.20 | Lunch | | | | |
| 14.15 | SNSC Seminar Room 1<br><br>Workshop: **Write a Public and Patient Involvement (PPI) plan for your next grant application in 90 minutes (ish): with input from CATCH Study Collaborators** – Sarah Bailey (A266) | **Nash Suite Room 1**<br><br>**Chair: Pradeep Virdee**<br><br>**Early Diagnosis-Comorbidities**<br><br>Exploring the impact of comorbidities on cancer outcomes and routes to diagnosis; a retrospective cohort study **Bianca Wiering (A186)**<br><br>Cancer diagnostics through Cancer Patient Pathways in patients with psychiatric disorders **Line Virgilsen (A194)**<br><br>Diagnostic activities in general practice among colorectal cancer patients with comorbidity **Alina Falborg (A201)**<br><br>The impact of anxiety or depression on early diagnosis of cancer – cohort study using linked electronic health records **Luke Mounce (A238)** | **SNSC Seminar Room 2**<br><br>Workshop (Survivorship): **Canadian Team to Improve Community-Based Cancer Care along the Continuum (CanIMPACT: Innovation for Cancer Care Research and Practice** – Bojana Petrovic (A258) | **Nash Suite Room 2**<br><br>**Chair: Marcela Ewing**<br><br>**Early Diagnosis - Epidemiology**<br><br>General Practice chest x-ray rate is associated with earlier lung cancer diagnosis and reduced all cause mortality: a retrospective observational study **Matthew Barclay (A205)**<br><br>Characterising the volume and variation of multiple urgent suspected cancer referrals in England **Kirsten Roberts (A243)**<br><br>Identifying barriers to help-seeking for rural residents experiencing symptoms of colorectal cancer and developing strategies to improve early-presentation and diagnosis: The RURALLY Study **Christina Dobson (A248)**<br><br>Comparison between the 2014 and 2018 National Cancer Diagnosis Audits for England **Ruth Swann (A296)** | **SNSC Auditorium**<br><br>Workshop (Early Diagnosis) - **International primary care data landscape - what does good data look like?** - Samantha Harrison (A312) |

| | | | | | |
|---|---|---|---|---|---|
| | | Multimorbidity in patients with incident cancer **Luke Mounce (A286)**<br><br>Understanding the diagnostic timeliness of cancer patients with pre-existing morbidities: What do different methodological approaches tell us? **Gary Abel (A290)** | | Comparing primary care referrals and secondary care presentations with linked data from the National Cancer Diagnosis Audit **Ruth Swann (A253)**<br><br>Cancer risk after a negative initial urgent suspected cancer referral – a national cohort study **Thomas Round (A304)** | |
| 15.45 | Coffee | | | | |
| 16.00 | **SNSC Auditorium**<br><br>**Chair: Clare Bankhead**<br><br>**Early Diagnosis – Lightening Talks**<br><br>Public attitudes towards discussing possible cancer signs and symptoms in community pharmacies **Claire Champ (A277)**<br><br>Healthcare use and clinical investigations before a diagnosis of ovarian cancer: a register-based study in Denmark **Isabella Rousing (180)**<br><br>Colon Cancer in Patients with non-specific Symptoms – comparisons between diagnostic Paradigms **Christina Damhus (A195)**<br><br>The cancer diagnostic interval in oral cavity, breast, colorectal, pancreatic, and skin melanoma: its variability and factors associated with its length **Patti Groome (A245)**<br><br>Associations between smoking status, health literacy and the healthcare-seeking behaviour with potential lung cancer symptoms in the general population **Lisa Sætre (A255)**<br><br>Repeat consultation activity for clinical features of possible cancer before, during and beyond | **SNSC Seminar Room 1**<br><br>Workshop (Survivorship):<br>**How to study the role of primary care in cancer care - interactive workshop about study designs, PROMs, process evaluations and more** – Daan Brandenbarg (A230) | **Nash Suite Room 1**<br><br>**Chair: Rosalind Adam**<br><br>**Screening & Prevention – Lightening Talks**<br><br>Improving Patient adherence to Cervical Screening Program in Primary Care – Clinical Audit **Negin Gholampoor (A192)**<br><br>Awareness and knowledge of HPV and its role in cervical screening among women in Great Britain: An online population-based survey **Laura Marlow (A207)**<br><br>Equality, diversity and inclusion in lung cancer screening: a scoping review **Nicola Copper-Moss (A212)**<br><br>Metabolically defined obesity phenotype and risk of colorectal adenoma **Li LI (A218)**<br><br>Should I Take Aspirin (SITA): trialling a decision aid for cancer | **SNSC Seminar Room 2**<br><br>Workshop (Early Diagnosis) –<br>**Cancer diagnosis in the old and frail, what is the evidence and where do we go from here** – Daniel Jones (A311) | **Nash Suite Room 2**<br><br>**Chair: Tanvi Rai**<br><br>**Survivorship & Epidemiology - Lightening Talks**<br><br>Distribution, Risk Factors, and Temporal Trends for Lung Cancer Incidence and Mortality: a global analysis **Junjie Huang (A261)**<br><br>What is the evidence behind cancer care reviews, a British primary care support tool? A scoping review **Dipesh Gopal (A171)**<br><br>A protocol for the development of a brief educational intervention to improve nurse knowledge and confidence to educate patients and carers pre-intravenous (IV) systemic anti-cancer therapy (SACT) in one cancer centre in Wales (UK). **Lenira Semedo (A197)** |

| | | | | |
|---|---|---|---|---|
| | the COVID-19 restrictions: retrospective cohort study from English primary care **Lucy Ross (A257)**<br><br>Factors associated with events during the diagnostic process: a questionnaire survey among general practitioners **Gitte Bruun Lauridsen (A273)**<br><br>Use of CT scanning and Chest X-rays of Danish Patients with Lung Cancer prior to Diagnosis from 2010 to 2020 **Soren Laursen (A275)**<br><br>Planning a mixed-methods study of attendance for suspected cancer investigations in people with anxiety and/or depression **Sarah Price (A284)**<br><br>Understanding the barriers and enablers of primary care remote consultations for suspected cancer among vulnerable populations – methodological considerations **Stefanie Disbeschl (A292)**<br><br>Exploring patient engagement with their GP practice about lung health symptoms: The PEOPLE-HULL study **Alex Young (A298)**<br><br>Are there differences by ethnicity in the recording of cancer features before diagnosis? An English longitudinal data-linked study **Tanimola Martins (A301)**<br><br>A systematic review of prescribing patterns in general practice records prior to cancer diagnosis: interim results **Benjamin Jacob (A305)**<br><br>A predictive model for colorectal cancer for symptomatic patients in primary care; extending the role of the faecal immunochemical test **Mike Cooke (A293)** | | chemoprevention **Jennifer McIntosh (A219)**<br><br>Investigating the influence of rural residency on the uptake of screening for breast, cervical and colorectal cancers in Scotland. **Lisa Iversen (A242)**<br><br>Training Women to be Peer Health Coaches that Support Behaviour Change in Women at Risk for Cancer and Chronic Disease: A Mixed-Methods Evaluation of an Online Competency-Based Volunteer Peer Health Coaching Training Program **Jackie Bender (A244)**<br><br>Using Concept Mapping to Understand Cervical Underscreening Amongst South Asian Women living in Ontario, Canada **Kimberly Devotta (A247)**<br><br>Lessons learned from a community-based screening program: building trust and bringing prevention to those who need it the most. **Ana Natale-Pereira (A249)**<br><br>Adapting Colorectal Cancer Screening Strategies to Achieve Success: Lessons learned from the COVID-19 pandemic. **Ana Natale-Pereira (A259)**<br><br>Cancer screening participation within a highly urbanised region in the Netherlands: comparing the breast and colorectal cancer screening programmes of The Hague **Thom Bongaerts (A225)** | | Identifying frailty in cancer survivors: patterns of cancer follow-up care and implications for personalized survivorship models **Sarah Murnaghan (A209)**<br><br>Rural and Urban patients' Requirements and Experiences of OOH care after cancer (RUREO): A questionnaire study **Lisa Duncan (A232)**<br><br>Understanding how survivors' experiences and needs after cancer treatment impact their health care utilization: A survey-administrative health data linkage study **Robin Urquhart (A235)**<br><br>Risk of neurologic sequelae among survivors of non-malignant meningioma in the UK Biobank cohort **Diana Withrow (A241)**<br><br>Follow-up cancer care in Danish general practice – perspectives from the General Practitioners **Dorte Jarbol (A247)**<br><br>Comprehensive Cancer Screening, Prevention, Risk Reduction, and Survivorship: an Integrated Model of Whole-Person Care **Christina Crabtree-Ide (A313)**<br><br>Remote vs. face-to-face GP appointments: Availability and public preferences **Claire Champ (A279)** |

| | | | | | |
|---|---|---|---|---|---|
| | Performance of screening tests for Esophageal Squamous Cell Carcinoma: a systematic review and meta-analysis **Martin Wong (A26)** | | Perceptions and beliefs of general practitioners in the cancer screening programmes in The Netherlands: a mixed-methods study **Thom Bongaerts (A270)**<br><br>Pilot lung screening in Scotland: intervention development and interim findings **David Weller (A306)** | | Primary care physicians' knowledge and confidence to provide cancer survivorship care; a systematic review **Larissa Nekhlyudov (A237)** |
| 17.30 | End | | | | |
| 18.30 | Drinks reception – Main Quad, Worcester College | | | | |
| 19.30 | Dinner – Dining Hall, Worcester College | | | | |

**Day Two Friday 24th March**

| | | | |
|---|---|---|---|
| **8.30** | Coffee | | |
| **9:00** | **Nash Suite Room 1**<br><br>Workshop (Survivorship): **Building PCP-Survivorship Linkages: A Shared Care Model of Cancer Survivorship and Community-Based Primary Care in the United States** – Christina Crabtree Ide (A256) | SNSC Seminar Room 1<br><br>Workshop (Early Diagnosis): **Why do General Practitioners sometimes not think of, or act on, a possible cancer diagnosis?** – Michael Harris (A267) | SNSC Seminar Room 2<br><br>Workshop (Screening & Prevention): **The BETTER Program: An innovative evidence-based approach to support healthier behaviours that reduce the likelihood of cancers and other chronic diseases** – Carolina Fernandes (A217) | **Nash Suite Room 2**<br><br>Workshop (Early Diagnosis): **Non-specific symptom pathways for cancer: how are they working and where are they going?** – Georgia Black (A214) |
| **10.30** | Coffee | | |

| | **SNSC Auditorium** | **SNSC Seminar Room 1** | **Nash Suite Room 1** | **Nash Suite Room 2** |
|---|---|---|---|---|
| **10.50** | **Chair: Tani Martins** | **Chair: Georgia Black** | **Chair: Fiona Walter** | **Chair: Eliya Abedi** |
| | **Screening and Prevention - Oral 2** | **Early Diagnosis - Perceptions** | **Survivorship – Oral 2** | **Early Diagnosis - Prediction** |
| | Psychological Impact of the Galleri Test (sIG(n)al): Protocol for a longitudinal evaluation of the psychological impact of receiving a cancer signal in the NHS-Galleri Trial **Laura Marlow (A206)** | Understanding patient preferences for investigating cancer symptoms in general practice: A discrete choice experiment **Brent Venning (A204)** | The NASCAR+ Study - a data-linkage study of the association between travelling time from home to the cancer centre and receipt of post-diagnostic hospital cancer care **Peter Murchie (A198)** | Validation of a diagnostic prediction tool for colorectal cancer: a case-control replication study **Elinor Nemlander (A181)** |
| | Young women with (pre)malignant cervical lesions in the northern Netherlands: what characterises them? **Marjolein Dielman (A220)** | Provider perceptions of interventions to encourage prevention and early diagnosis of cancer after a negative diagnosis **Ruth Evans (A211)** | How Cancer Survivors' Challenges After Treatment Impact Transition to Primary Care-led Follow-up Care **Jessica Vickery (A202)** | A machine learning tool for identifying non-metastatic colorectal cancer in primary care **Elinor Nemlander (A188)** |
| | The Yorkshire Enhanced Stop Smoking (YESS) study: process evaluation of a personalised intervention to support smoking cessation within lung cancer screening – **Harriet Quinn-Scoggins (A224)** | Establishing the priorities for electronic safety-netting tool features: A qualitative interview and Delphi study with PPI input. **Claire Friedemann Smith (A222)** | Characterizing oncology and primary care involvement in breast cancer survivorship care delivery in the United States (US) **Archana Radhakrishnan (A231)** | Full BLOOD count TRends for colorectal cAnCer deteCtion (BLOODTRACC): development of dynamic prediction models for early detection of colorectal cancer using trends in blood tests from primary care **Pradeep Virdee (A183)** |
| | Reach and Effectiveness of an HPV Self-Sampling Intervention for Cervical Screening in Ontario, Canada **Kimberly Devotta (A246)** | The ThinkCancer! Intervention: results and lessons learned from a phase II feasibility trial in Wales **Richard Neal (A291)** | Duplication and Fragmentation in Breast Cancer Survivorship Care across Primary Care and Oncology in the United States (US) **Lauren Wallner (A252)** | BMI and HbA1c as metabolic markers for pancreatic cancer **Agnieszka Lemanska (A189)** |
| | Implementation of social needs screening for newly diagnosed breast cancer patients: Evaluation of facilitators and barriers to successful screening. **Karen Freund (A254)** | Patient experience and acceptability of using the faecal immunochemical test when presenting with symptoms in primary care: a qualitative interview study **Natalia Calanzani (A308)** | | Prediction Algorithm for Gastric Cancer in a General Population: a validation study **Junjie Huang (A282)** |
| | | The impact of electronic risk assessment tools (eRATs) for early cancer diagnosis in general practice on GP workload and patient 'flow' during consulting sessions **Gary Abel (A285)** | | Risk of cancer following a low haemoglobin test result by ethnic group – the EPIC study **Liz Down (A276)** |
| | | | | Applying a genetic risk score for colorectal cancer to patients consulting in primary care with high or low risk colorectal cancer symptoms: a cohort study in the UK Biobank **Bethan Rimmer (A287)** |

| | | | | |
|---|---|---|---|---|
| | Exploring perceptions and experiences of NHS breast screening for socio-economically disadvantaged women in Yorkshire **Emily Lunn (A294)** | | | |
| 12.20 | Lunch | | | |
| | <div align="center">SNSC Auditorium</div> | | | |
| 1.20pm | Rikke Sand Andersen and Marie Louise Tørring<br>**Crafting Cancer Anticipations: Anthropological perspectives on cancer diagnostic experiences** – book launch – Introduced by Sue Ziebland | | | |
| 2.00pm | **Prize talks**<br><br>**Chair: David Weller**<br><br>Safety netting in language discordant consultation: does it translate? A qualitative study of healthcare interpreters' perspectives on safety netting in primary care consultations. **Eleanor Southgate (A288)**<br><br>CRISP: developing a colorectal cancer risk prediction tool for use in primary care using the MRC Framework for Complex Intervention **Jennifer McIntosh (A281)**<br><br>A randomised controlled trial of a digital intervention (Renewed) to support symptom management, wellbeing and quality of life in cancer survivors **Kat Bradbury (A283)** | | | |
| 2.45pm | Coffee | | | |
| 3.05pm | **Eva Grunfeld** – outstanding career closing plenary – Introduced by David Weller | | | |
| 3.35pm | Closing Remarks – David Weller | | | |
