

Ca-PRI 2020 Day Zero April 1st			
17:30 – 19:30	Pre-Registration / Reception – University of Oxford History of Science Museum		
Day One April 2nd			
08:00	Registration & Coffee - MTB Corridor		
08:30 – 09:00 Mapplethorpe Building - Hall	Rafael Perera, Welcome to St Hughs college Brian Nicholson, NDPCHS University of Oxford Christine Campbell, Ca-PRI Sara Hiom, CRUK Martyn Wells, Patient Voice - The elephant in the room		
09:00 – 09:30 Mapplethorpe Building - Hall	Prof Peter Johnson - National Clinical Director for Cancer, NHS England and NHS Improvement Primary care's role in cancer prevention, diagnosis and management in the NHS Long Term Plan		
09:30 - 09:45	Comfort break		
09:45 - 11:00 Mapplethorpe Building - Hall	Dr Ruth Etzioni - Fred Hutchinson Cancer Research Center Evaluating the Risk of Cancer Overdiagnosis Dr Barry Kramer - Recent Director of the NCI Division of Cancer Prevention Overdiagnosis: Incidentalomas on Symptomatic People (A Biological Challenge and Clinical Dilemma in a Data-penic World)		
11:00 - 11:30	Coffee – Wordsworth Tea Room		
11:30 - 13:00	Early Dx/Testing Mapplethorpe Building - Hall The predictive value of CA125 for ovarian and non-ovarian cancer in General Practice: a population-based cohort study - Garth Funston	Colorectal Cancer Screening Dickson Poon – Louey Room The impact of different screening tests and absolute risks of colorectal cancer on intention to participate in colorectal cancer screening - Juliet Usher-Smith	Survivorship Dickson Poon – Ho Tim Room Healthcare use in the year preceding recurrence of colorectal cancer: a nationwide register study - Linda Aagaard Rasmussen

	<p>Using platelet count to rationalise referral to secondary care with suspected colorectal cancer - Benjamin Pearson</p> <p>Association of non-malignant diseases with thrombocytosis: a prospective cohort study in general practice - Cansu Clarke</p> <p>Can faecal immunochemical tests (FITs) be used in patients with a history of rectal bleeding when suspecting colorectal cancer? A cohort study - Cecilia Högborg</p> <p>Imaging activity in patients with bladder and kidney cancer prior to diagnosis: a longitudinal data-linkage study - Yin Zhou</p> <p>Timeliness of pre-diagnostic chest X-rays among patients with features of possible lung cancer: an assessment of NICE guideline compliance - Garth Funston</p>	<p>The acceptability and feasibility of assessing colorectal cancer risk using a polygenic risk score to target screening in general practice: interviews with patients and GPs – Sibel Saya</p> <p>A randomised controlled trial testing primary care-based paper and telephone interventions to increase uptake of bowel scope screening - Lesley M. McGregor</p> <p>Motives for non-adherence to colonoscopy advice after a positive colorectal cancer screening test result: a qualitative study - Lucinda Bertels</p> <p>Assessing Barriers and Facilitators to Design a Feasible Colorectal Cancer Screening Program in Mexico City - Karla Unger-Saldaña</p>	<p>Primary care use after cancer treatment: findings from a population-based study in Nova Scotia, Canada - Robin Urquhart</p> <p>Improving the delivery of shared survivorship care after primary breast cancer treatment through a multi-level intervention: A pilot randomized controlled trial - Lauren Wallner</p> <p>Coordination between specialized oncology teams and non-profit organizations: a multi team system perspective - Dominique Tremblay</p> <p>A meta-ethnography of cultural influences on cancer-related psychological interventions - Dipesh Gopal</p> <p>General Practice and Cancer Survivorship – how to best support general practice? - Lisbeth Høeg-Jensen</p>
	<p>Early Dx Mapplethorpe Building - Seminar Room</p> <p>Creating a Learning Health System for Measurement of Cancer-related Diagnostic Safety – Hardeep Singh</p>		
13:00 – 13:55	Lunch – Wordsworth Tea Room		
14:00 – 15:00 Mapplethorpe Building - Hall	<p>Selected Plenary Presentations</p> <p>Mia Nelson - The experience of cervical screening participation and non-participation of women from minority ethnic populations in Scotland</p> <p>Stephen Bradley - What is the sensitivity of chest x-ray for lung cancer and what are the differences in time to diagnosis and outcomes between patients who have a true positive and those who have a false negative chest x-ray?</p> <p>Joke Korevaar - Adverse health effects after breast cancer up to 15 years after diagnosis</p>		
15:00 – 16:30	<p>Screening Mapplethorpe Building - Hall</p>	<p>Early Dx/Diagnostic Pathways Dickson Poon – Louey Room</p>	<p>Harnessing Big Data Dickson Poon – Ho Tim Room</p>

	<p>A pragmatic trial of abnormal cancer screening result follow-up among patients followed in primary care practice networks: The mFOCUS Trial - Steven Atlas</p> <p>What interventions are effective in increasing participation in cervical screening in minority ethnic groups in high income countries? – Andrea Patton</p> <p>Factors associated with uptake of breast cancer screening: a population-based study – Paul SF Chan</p> <p>Factors associated with screening for cervical cancer among a female population: a population-based study of 2,305 Chinese individuals - Peter Choi</p> <p>Do participant information resources support informed decision-making about lung cancer screening? - Janet Tonge</p> <p>Cervical cancer screening among marginalised women: Lessons learned from a pilot study in the Netherlands - T.H.G. Bongaerts</p>	<p>Reasons for long duration of the diagnostic pathway of patients with 5 types of cancer in the Netherlands - Charles Helsper</p> <p>Perspectives on referrals for suspected cancer: A qualitative study with patients and healthcare staff -Thomas Round</p> <p>Guideline discordant diagnostic care: when do primary care referrals not reflect guidelines for suspected cancer? - Gary Abel</p> <p>Cancer incidence after guideline discordant GP referral behaviour for potential cancer symptoms - Bianca Wiering</p> <p>Factors associated with differing colorectal cancer diagnostic pathways in Ontario, Canada - Patti Groome</p> <p>Implementation of magnetic resonance imaging into the prostate cancer diagnostic pathway: a qualitative interview study with patients and GPs - Sam Merriel</p>	<p>To refer or not to refer? Using a Signal Detection approach to study GPs' urgent cancer referral decisions - Olga Kostopoulou</p> <p>Implementing diagnostic safety surveillance to learn from missed opportunities in cancer diagnosis using quality and safety data at an integrated health care system's Safer Dx Learning Lab - Divvy Upadhyay</p> <p>An electronic clinical decision support tool for assessing oesophago-gastric symptoms in primary care (ECASS): cluster-randomised controlled feasibility trial - Greg Rubin</p> <p>Predictive machine learning models developed for routine primary care blood test result data - Sarah Bailey</p> <p>The MelaTools randomised clinical trial: can a skin self-monitoring app improve early detection of melanoma? - Merel Pannebakker</p> <p>Melanoma Apps Study: Patient's experiences of using skin self-monitoring apps when at risk of melanoma - Emily Habgood</p>
	<p>Survivorship Mapplethorpe Building - Seminar Room</p> <p>Risk-stratified screening in primary care: Co-designing a framework for future international research and implementation - Stephanie Archer</p>	<p>Survivorship Wordsworth lecture Room - Main college building</p> <p>How to study the role of primary care in survivorship and palliative care - interactive workshop about study designs, PROMs, process evaluations and more - Mariken Stegmann</p>	
<p>16:30 – 17:00</p>	<p>Coffee Break – Wordsworth Tea Room</p>		

17:00 - 17:30	Guided poster session with drinks - MTB Corridor		
18:30 Mapplethorpe Building - Hall	Pre-dinner talk Professor Sir John Bell , Regius Professor of Medicine: Cancer control and the UK's life sciences strategy Followed by Dinner 19:30 and music from Oxfords finest 20 piece Cuban big band		
Day Two April 3rd			
08:30 – 09:00	Registration - MTB Corridor		
09:00 – 10:30	<p>Early Dx/Non Specific Symptoms Maplethorpe Building - Hall</p> <p>Non-specific signs and symptoms of cancer. The different organization of the cancer patient pathway in Denmark - Christina Sadolin Damhus</p> <p>Cancer investigation outside of the fast track pathways: What opportunities exist and how do they work? Insights and recommendations from the Danish experience - Amalie Martinus Hauge</p> <p>Development and feasibility of an abdominal 'yes-no' pathway for primary care patients with vague and non-specific abdominal symptoms - Nanna Holt Jessen</p> <p>Using linked primary care and cancer registration data to investigate diagnostic pathways of patients presenting with non-specific but concerning symptoms - Clare Pearson</p>	<p>Symptom Appraisal & Awareness Dickson Poon - Louey Room</p> <p>The Awareness and Beliefs About Cancer (ABACus) trial: randomised controlled trial of a targeted intervention to improve cancer symptom awareness and help-seeking among adults living in socioeconomically deprived communities in the UK - Kate Brain</p> <p>WELCOME-GP: a randomised controlled trial for the effectiveness of a targeted postal cancer awareness intervention for increasing attendance at general practice amongst patients at risk of late presentation - Jean-Pierre Laake</p> <p>ThinkCancer! Protocol for a Feasibility Study incorporating a Randomised Pilot Trial with embedded Process and Economic Evaluation - Richard Neal</p>	<p>Early Dx /Perspectives Dickson Poon - Ho Tim Room</p> <p>General practitioners' views on the possibilities for substitution of breast and colorectal cancer follow-up to primary care in the Netherlands: a qualitative study - Geertje Liemburg</p> <p>Pluralistic retasking. Re-thinking cancer diagnostics from a primary care physician perspective. A grounded theory study - Hans Thulesius</p> <p>Clinician views on the acceptability of Cytosponge, a novel diagnostic test for oesophageal pre-cancer Barrett's Oesophagus, during the BEST3 randomised controlled trial in primary care - Fiona Walter</p> <p>How doctors make themselves understood in primary care consultations: applying health literacy universal precautions to improve earlier diagnosis of cancer - Katriina Whitaker</p>

	<p>The GLANCE study: Patients' and GPs' views on the use of gut feelings for cancer in primary care - Claire Friedemann Smith</p> <p>Weight loss as a sign of cancer in the primary care population of Kaiser Permanente Washington – a retrospective cohort study using routinely collected electronic health record data - Jason Oke</p>	<p>Attitudes to help-seeking in Great Britain (GB): a population-based survey of adults in 2019 - Carina Crawford</p> <p>Mapping breast and cervical cancer awareness in Uganda and South Africa - Jennifer Moodley</p> <p>Psychosocial influences on medical help seeking for cancer symptoms and cancer treatment in lower income countries: a mixed methods systematic review - Grace McCutchan</p>	<p>Using action planning to explore acceptable interventions to improve the recognition and referral of cancer in primary care: an exploratory study - Daniel Jones</p> <p>Symptom appraisal, help seeking and perceived barriers to medical care in Uganda: An exploratory study among women with possible breast and cervical cancer symptoms - Amos Deogratius Mwaka</p>
	<p>Survivorship - Mapplethorpe Building - Seminar Room</p> <p>Performing studies among long-term cancer survivors in primary care - Annette Berendsen</p>	<p>Early Dx - Wordsworth Room - Main college building</p> <p>Evidence-based policy recommendations for multilevel initiatives promoting the earlier diagnosis of cancer - Natalia Calanzani</p>	
<p>10:30 – 10:50</p>	<p>Coffee Break – Wordsworth Tea Room</p>		
<p>10:50 – 12:35</p>	<p>Early Dx/Comorbidity Mapplethorpe Building - Hall</p> <p>Chronic diseases and incident cancer association- Lung cancer as an exemplar - Bhautesh Jani</p> <p>Impact of comorbidities and continuity of care on stage at diagnosis of lung cancer: cohort study using electronic primary care records - Luke Mounce</p> <p>Pre-diagnostic investigations and test-to-diagnosis intervals by comorbidity status in patients subsequently diagnosed with colorectal cancer: a longitudinal data-linkage study - Cristina Renzi</p>	<p>Early Dx / Epi Dickson Poon - Louey Room</p> <p>Failure or delay in the follow-up of abnormal prostate-specific antigen (PSA) test results in primary care: a systematic review - Jeanette Reece</p> <p>Emergency Presentation in the United States - Caroline Thompson</p> <p>Tracking cancer occurrence in the 5 years following a negative head and neck referral - Suzanne Scott</p> <p>Is bigger data better? A reanalysis of the NASCAR cohort to compare individual versus area-based measures of socioeconomic status - Peter Murchie</p>	<p>Survivorship Dickson Poon – Ho Tim Room</p> <p>Symptoms in long-term breast cancer survivors: a cross-sectional study in primary care - Saskia W.M.C. Maass</p> <p>Living with and beyond cancer with co-morbid illness: qualitative insights to parents and carer experiences - Debbie Cavers</p> <p>Access to and experiences of medication, devices and support for sexual dysfunction in men with prostate cancer: finding from a UK-wide study - Eila Watson</p> <p>Quality of life after surgeon- versus general practitioner-led aftercare for colon cancer; first year analyses of the I CARE trial - Julien Vos</p>

	<p>Risk of Hodgkin's lymphoma in patients with allergic disease: A UK nationwide case-control study - Meena Rafiq</p> <p>The presence and patterns of pre-existing chronic conditions among patients subsequently diagnosed with cancer: a cross-sectional study - Minjoung Monica Koo</p> <p>The timeliness of symptomatic oesophagogastric cancer diagnosis in patients with and without pre-existing medical conditions - Sarah price</p> <p>Relationship of Chronic Diseases with Oesophageal and Stomach Cancer in a Large Population Cohort: Use of Data Science Methodology - Jennifer Marley</p>	<p>Global Incidence and Mortality of Breast Cancer: A Trend Analysis - Martin CS Wong</p> <p>The failure to follow-up abnormal test results associated with undiagnosed prevalent colorectal cancer in primary care: a systematic review - Peter Nguyen</p> <p>Prevalence of Colorectal Neoplasia among the Average-risk Population: a systematic review and meta-analysis of 637,414 individuals - Junjie Huang</p>	<p>"Bridging the Gap" between Oncology and Primary Care for Complex Cancer Survivors - Project CONNECT - Bijal Balasubramanian</p> <p>Assessing prescription history as a marker of morbidity burden in cancer patients: construct validity against the Charlson morbidity score utilising a national dataset - Gabrielle Emanuel</p> <p>GPs' perspectives of the patient encounter – in the context of Standardized Cancer Patient Pathways - Cecilia Hultstrand</p>
	<p>Screening - Mapplethorpe Building - Seminar Room</p> <p>Optimising communication of changes to cervical screening programmes: can we develop a shared narrative across countries? - Rachael Dodd</p>	<p>Early Dx - Wordsworth Room - Main college building</p> <p>Reflections on a comparative qualitative study of patients' experiences of cancer diagnosis in England, Denmark and Sweden: multiple findings from a multi-disciplinary study - Sue Ziebland</p>	
<p>12:35 – 13:15</p>	<p>Lunch – Wordsworth Tea Room</p>		
<p>13:15 – 14:15</p>	<p>Evidence Synthesis Dickson Poon - Louey Room</p> <p>Are intravaginal practices associated with human papillomavirus and the development of cervical cancer? A systematic review - Christine Campbell</p> <p>Healthcare professional perspectives on delays in cancer diagnosis: A systematic review of qualitative research - Elise Crayton (registered no rsvp)</p> <p>Risk Prediction Models for Urinary Tract Cancer: A Systematic Review - Hannah Harrison</p>	<p>Prevention & Perception Dickson Poon – Ho Tim Room</p> <p>Incorporating a very brief intervention for personalised cancer risk assessment to promote behaviour change into primary care: a pilot study - Juliet Usher-Smith</p> <p>Development and user-testing of a brief decision aid for low-dose aspirin use as a preventive approach alongside screening for colorectal cancer to an age eligible screening population in Wales (UK) - Lenira Semedo</p>	

Determining which biomarkers are ready for evaluation in primary care for use in early detection and diagnosis of gastrointestinal cancers: a systematic review - **Claudia Snudden**

Primary care providers' perceptions of participation in low-risk prostate cancer treatment decision making - **Archana Radhakrishnan**

An exploratory study of cancer in primary care content on Twitter and Instagram – **Kristi Milley**

Mapplethorpe Building - Seminar Room
Elevator Pitches

Kirubakaran Balasubramaniam - Worrying about cancer alarm symptoms – predictors and influence on diagnostics of cancer

Lesleigh Frank - Detection of Lung Cancer in Alaska: A Mixed-Methods Survey Study of Providers' Perceptions of Barriers to Lung Cancer Detection and Screening

Catherine Franczak - Systematic review of the relationship between chronic diseases and lung cancer: implications for screening and diagnosis

Laura Marlow - What information will women need from primary care professionals in light of the move to primary HPV screening in England

Robert Greenlee - The first 5 years of a lung cancer screening program in a US healthcare system participating in the Lung Cancer Screening Optimization in the US (LOTUS) Consortium

Gitte Bruun Lauridsen - Early diagnosis of cancer in primary care in the Region of Southern Denmark. A study protocol

Emilie Madsen - Mapping the Approach to Cancer Diagnostics among the Diagnostic Centers in the Region of Southern Denmark

Ben Cranfield - Primary care use of blood tests in patients subsequently diagnosed with cancer: evidence from a national audit of cancer diagnosis

Anam Ayaz-Shah - Systematic Scoping Review of Point-of-Care tests used to detect Cancer

Melissa Barlow - The association between the histological subtypes of lung cancer and pre-diagnostic thrombocytosis

Lucy Brindle - An integrated analyses of GP consultation video data and patient interviews to identify optimal GP-patient communication about safety-netting, direct-access-tests and referral for possible cancer

Ruth Swann - Comparing primary care referrals and secondary care presentations with linked data from the National Cancer Diagnosis Audit

Sanne Rasmussen - A mixed methods study of health inequality in the diagnostic process of cancer alarm symptoms

Larissa Nekhlyudov - Training PCPs to Care for Patients Living Beyond Cancer: Development of a Novel Continuing Medical Education Program

Marie-Christine Sarfo - The experiences and expectations of breast cancer survivors with their general practitioner about work participation

Julia Roscoe - Investigating unmet needs, quality of life and use of digital health technology in patients with prostate, bladder and colorectal cancer. (IINeed-QL)

Sarah wong - Cancer survivorship education: Canadian family medicine residents' self-perceived preparedness for cancer survivorship care

Alexandra Watts - Introducing equitable Personalised Care into a newly merged trust: Our experience

Steph Taylor - Survivors' Rehabilitation Evaluation after CANcer (SURECAN): using Acceptance & Commitment Therapy plus optional physical activity and work support (ACT+) to help people living with and beyond cancer

14:15 – 15:45 Mapplethorpe Building - Hall	Future Health Session Details TBA
15:45	Wrap up/Closing Comments Coffee – Wordsworth Tea Room, Safe journey home
