Choir Taster Sessions

@ St Luke's Chapel

Tuesday 24th January, 13:00-14:00
Thursday 26th January, 17:00-18:00

Come and try some easy Taster sessions for a new NPCHS choir project.

We are inviting people from all corners of the department to try a new open-access choir which aims to bring people together to sing for enjoyment, stress relief and new bonds.

What to expect

A non-auditioning acapella choir with fun warm-up exercises and ice-breakers, easy to learn short songs and uplifting harmony in several parts, often achieving surprising results in one session.

Facilitator

Emily Marshall is a skilled facilitator used to working with groups with a wide range of abilities and experience. She teaches in a relaxed inclusive style and will help you feel part of something special both socially and musically. She works to the ethos of the Natural Voice Network which is that everyone can sing given a supportive and non-judgemental environment. Seasoned singers and complete novices learn together.

There is no need to read music.

Just walking through the door is your audition! See you there.
