Inclusive Teaching Pedagogy and Practice

The session will explore teaching and learning through the lens of knowledge equity. How incorporating students lived, learnt and practised experience in the classroom can create an inclusive learning environment. Sharing examples of how knowledge equity can be applied to promote deep conversational learning, critical thinking, self-reflection and freedom from prejudice.

Alex Conner

Supporting ADHD/Neurodiversity in Postgraduate Education

An interactive session discussing the impact of ADHD and neurodiversity on the student experience. The session will cover some of the truths and myths around living (and learning) with ADHD as well as some practical tips toward supporting our students.
